# *About*

## RJ Cooper

RJ Cooper has been a researcher and developer for persons with disabilities since 1984. He has authored many software titles and developed several hardware adaptations. His expertise ranges from mild to severe/profound developmental delays and learning and physical disabilities. He lectures regularly at Adaptive Technology conferences and is the author of "Ask RJ" which appears in the publication "Closing the Gap". This unique presentation will consist of his working with a variety of people with disabilities to help develop learning solutions for living.

### *About*

**ABILITY  
CONNECTION  
OKLAHOMA™**

---

Helping People with Disabilities™

Our name may be new, but our time-honored tradition of providing programs and services for Oklahomans with physical disabilities and their families, remains the same.

Ability Connection Oklahoma provides grants or loans of wheelchairs, strollers, walkers, bathroom aides and other durable medical equipment. Information and referrals are provided to individuals who contact our organization. Also, through collaboration with other agencies, we assist and advocate for families in crisis. Financial assistance is available for specific expenses related to disability that have no other source of funding. These items – such as specialized formula, diapers, and other emergency requests may seem inconsequential, but to families caring for a member with a disability, these requests are critical.

For more than 50 years, United Cerebral Palsy of Oklahoma, now Ability Connection Oklahoma, has been and will remain a safety net for people with physical disabilities.
